CONTENTS OF VOLUME 17

JANUARY-FEBRUARY 1987

2 **Factors Influencing 1986 Telecom Compensation,** Deborah Thobe
9 **Telemanagement Systems—Part 1: Features and Procurement Issues,** Edward T. Whitney
16 **Tough Times Continue for Interconnects,** Allan M. Sulkin
21 **Product Update: Data PBXs,** Jerry R. Sparger
27 **CCITT's Director on the Evolution of ISDN,** Fred S. Knight
33 **Washington Perspective:** "Greene Ruling to Touch Many Network Customers" by Victor Toth
37 **Doing Business Electronically:** "What's Wrong with ISDN?" by John McQuillan
40 **Data Comm Focus:** "Telecommunications Management" by Michael Finneran
44 **Regulatory Developments:** Status of Major FCC Inquiries
50 **Network Design Forum:** "What Happened to AT&T Dial-up and WATS Services?," Michael T. Hills
52 **BCR Seminars**
55 **Consultant's Corner:** "Vendor Strategies Abound—So Do User Needs" by Richard A. Kuehn

MARCH-APRIL 1987

2 **Briefing:** Why Senior Execs Aren't Excited by Voice/Data Integration; Growth in RHC Subsidiaries; AT&T Doubles Cancellation Charges; Get Ready: Net Wars are Coming; MTC Conference and Call for Papers Competition
5 **Doing Business Electronically:** "Will Telecom Enable or Disable Your Business?" by John McQuillan
7 **Implementing ISDN in the Real World,** William R. Grantham
12 **Whatever Happened to Bypass?,** George Pfister
18 **Telemanagement Systems—Part 2: Implementation,** Beau R. Holland and Kay Hancock
22 **Satellites and Fiber Optics: Redefining the Business of Long-Haul Transmission,** R.A. Gershon
26 **IBM's Advanced Communications Architectures,** Lee W. Doyle
32 **Washington Perspective:** "Getting the BOCs into Long Distance" by Victor Toth
37 **New Product:** 800 Service: The First Service of the BOC Intelligent Network
41 **Data Comm Focus:** "Pushing Aside the Ayatollahs of Voice/Data Integration" by Michael Finneran
43 **Inside Wiring:** "Building an Integrated Wiring Plan," Jeff C. Hafer; "Cabling Issues When Leasing Space," James Carlini; "Unraveling Changes to Inside Wire," Victor J. Toth
53 **Network Design:** "Are Software Defined Networks in Your Future?," Michael T. Hills
57 **BCR Seminars**
59 **Consultant's Corner:** "The Secondary Market is a Brave New World for Users" by Richard A. Kuehn

MAY-JUNE 1987

2 **Briefing:** Are Telcos Efficiently Managed?; ISDN Prototype CPE Products Begin to Appear
4 **Doing Business Electronically:** "Are You Irrelevant to the Success of Your Firm?" by John McQuillan
6 **Profiles of Telecom Management Excellence,** Byron Belitsos
14 **Comparing Long Distance Costs,** Michael T. Hills
20 **Survey Indicates Strong Demand for Digital and Packet Switching,** Kathryn C. Korostoff
23 **A Critique of the Huber Report: In Search of the Geodesic Network,** Lee L. Selwyn and W. Page Montgomery
28 **Who Will Benefit from Open Network Architecture,** Barry Papermaster
31 **A Local Government Makes Telecom Central to Its Planning,** Katherine M. Lueckert
34 **Washington Perspective:** "Privacy Rules and Laws Undergo Change" by Victor J. Toth
38 **New Products:** Northern, AT&T and Ericsson Focus on Small Systems Market; The Aspect CallCenter
46 **Data Comm Focus:** "A Word About the Wild and Woolly World of Wiring" by Michael Finneran
48 **Between the Lines:** "Have I Got a Deal for You!," Lee Goeller
50 **BCR Seminars**
52 **Network Design:** "Somewhere in Time," Michael Finneran
56 **Consultant's Corner:** "Deregulation and Trade Top International Telecom Agenda" by Richard A. Kuehn

JULY-AUGUST 1987

2 **Briefing:** Line Conditioning Costs Climbing?; IBM and NET to Cooperate on T1 Muxes; Telecom Budgets Emphasize People, Not Products
4 **Doing Business Electronically:** "Next Generation Network Switches" by John Mcquillan
7 **Avoiding the "Bitfalls" of T1 Multiplexers,** George Pfister
12 **PC LAN Generations,** J. Scott Haugdahl

JULY-AUGUST 1987 (cont.)

17 **Strategic Forecasting and Telecommunications Planning,** Page Montgomery and David Townsend
22 **What Does Telecommunications Productivity Really Mean,** Byron Belitsos
28 **Back to the Future: The Power of 1A2,** Lee Goeller
33 **Negotiating Custom Contracts,** Paul Daubitz
36 **Competitive Directions in Electronic Data Interchange,** Victor S. Wheatman
41 **Washington Perspective:** "Confronting Long Distance Tax-Related Surcharges" by Victor J. Toth
45 **Market Trends:** "Packet Switching Equipment Enters New Phase," Kathryn C. Korostoff
48 **New Products:** Northern Telecom's Meridian LANSTAR PC; Redundancy vs. Networking: AT&T's System 85 SE PBX
50 **Data Comm Focus:** "Private Line Consolidation Strategies" by Michael Finneran
52 **BCR Seminars**
54 **Career Planning:** "The Employment Market for Telecom Professionals," Robert Bennett
56 **Consultant's Corner:** "Thoughts from the Show Floor—ICA '87" by Richard A. Kuehn

SEPTEMBER-OCTOBER 1987

2 **Briefing:** IBM/Rolm on ISDN; Race is on in 800 Service Market
4 **Doing Business Electronically:** "A Phased Approach to Voice/Data Integration" by John McQuillan
6 **RFPs Show Evolving Role for PBXs,** Allan M. Sulkin
10 **Factors Driving the Fast Packet Switching Market,** Warren G. Bender
13 **Telecom Can Reshape Your Marketplace,** Dr. David A. Runge
17 **New Choices for Intrastate Long Distance Services,** Michael T. Hills
20 **Managing the Corporate T1 Network,** Robert B. Mhoon
26 **Chasing ACD Phantom Calls,** Dr. Robert L. Hayes and Karen Harrison
30 **Systems Application Architecture Redefines IBM Compatibility,** Stephen J. Randesi
35 **Washington Perspective:** "Coping with Access Charges on Data Information and Enhanced Services Providers" by Victor J. Toth
39 **New Products:** Northern Telecom's SuperNode; Timeplex to Enhance LINK Voice Packet Server
44 **Personal View:** "Special Access Surcharge: To Pay or Not to Pay?," Edward J. Tomko
46 **BCR Seminars**
48 **Data Comm Focus:** "Private Line Consolidation: Part 2" by Michael Finneran
50 **Technology Trends:** "Why Protocols are Replacing Electrical Interfaces," C.R. Baugh and J.P. Jayapalan
55 **Consultant's Corner:** "Four Ways to Outgrow Your Phone System" by Richard A. Kuehn

NOVEMBER-DECEMBER 1987

2 **Briefing:** Getting the Vendor's Attention; Northern Announces ISDN for SL-1s and SL-100s; Who Will Play in AT&T's UNMA Game?; Turning Your PC into a Fax Machine
5 **Doing Business Electronically:** "Integration—How Do We Get There From Here?" by John McQuillan
7 **The Key Telephone System Market Adapts for the 1990s,** David Keeler
10 **Negotiating Contracts: Coming to Terms with Your Vendor,** David Nevers
12 **Why the Private Voice Network Market Will Shrink,** George Pfister
16 **Virtual Network Rules Change...Again,** Michael T. Hills
20 **Capturing Customers with Ties That Bind,** Dr. David A. Runge
25 **Securities Industry Spending for Telecom Grows,** James Carlini
28 **Building a Management Architecture for Network Control,** Bruce E. Morrell
32 **Washington Perspective:** "Price Cap Regulation—What Is It and At What Price" by Victor J. Toth
37 **New Products:** IBM/Rolm Customers Can Keep Everything—But the PBX; Wang/InteCom Joins the ISDN Marketplace
41 **Management Strategies:** "Broadening the Information Management Perspective," James E. Jewett
45 **In-House Maintenance:** Developing an In-House Maintenance Staff
47 **Technology Trends:** "Desktop Video Market Wakes Up," Anne L. Beltz
52 **Data Comm Focus:** "Home Information Services Market Isn't Dead—Yet" by Michael Finneran
54 **BCR Seminars**
56 **Personal View:** "VSATs Belong in the Voice/Data Equation," Bruce R. Elbert
58 **Consultant's Corner:** "Communication Managers Adapt with the Times" by Richard A. Kuehn
60 **Contents of Volume 17**
